Term 4 HHOOSH Clubs

Our HHOOSH Club program is a unique and fun initiative that allows children to participate in a wide range of activities run by our experienced staff. Our Term 3 program for HHOOSH Clubs is as follows:

Day	Club	Description
Monday	Lego Masters	LEGO Masters is a fun and creative experience where children can experiment with their LEGO building skills. Each week, a theme will be set for the students to build a creation out of LEGO either individually or with their peers. This HHOOSH Club is a great way for children to experiment with their creativity and imagination, as well as fine motor skills.
Tuesday	Gardening Club	Gardening Club allows children to grow and maintain plants in our very own HHOOSH vegetable garden. The students work together to plant seeds, remove weeds and tend to their garden to see their plants thrive!
Wednesday	Cooking Club	Cooking Club is one of our most popular HHOOSH clubs! The children are able to work with one of our educators to cook, make or bake something of their choice! Children are able to suggest foods to cook through our Weekly Wednesday Wonders suggestions jar.
Thursday	HHOOSH's Ultimate Records	Ultimate Records is a favourite here at HHOOSH! The children are able to participate in a variety of challenges against their friends to break a HHOOSH record. Some examples from past records include plank holds, hula hooping and handball tournaments!
Friday	Workshop 4 Kids by Kids	Workshop 4 Kids by Kids is designed for children to run their very own workshop! The student can volunteer to teach the other children about a skill/interest they are passionate about. This club aims to develop children's confidence and leadership skills whilst building relationships with their peers.

Homework Club

Throughout the year, it can become very busy balancing schoolwork and extracurricular activities. To make this easier, HHOOSH runs Homework Club from Monday to Thursday between 3:30 PM to 4:30 PM. Homework Club allows students to get their homework done during After School Care with support and assistance from a staff member. The aim of homework club is to develop confidence, good study habits and support busy families.

If you wish to sign your child/ren up to Homework Club, next to the sign-in/out iPad is a schedule where you can write your child/ren's name on the day/s you wish for them to attend the club.

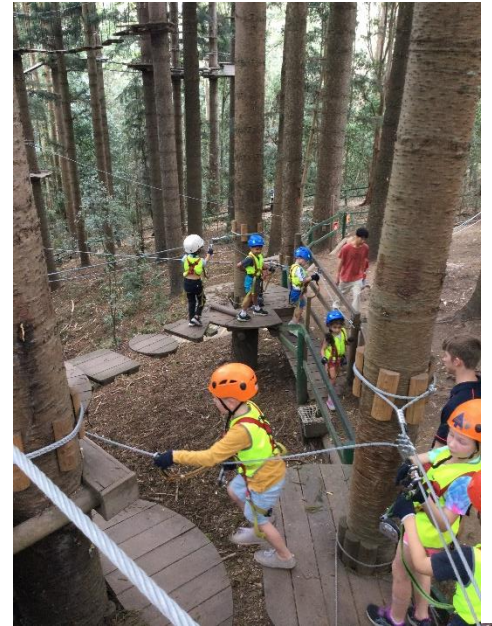

Septmeber/October Vacation Care

We're thrilled to share some memorable moments with you from our recent incursions and excursion during the September and October vacation care programs!

In September, our children had a blast participating in engaging and educational incursions, where they explored various topics and activities, sparking curiosity and excitement. From interactive workshops to hands-on demonstrations, each experience left a lasting impression.

Additionally, our October excursion was a highlight, providing our young adventurers with the opportunity to explore the world outside our center. Through fun-filled outings, they discovered new places, gained valuable insights, and created cherished memories together.

We invite you to take a glimpse into these enriching experiences through the captivating photos captured during these events. Enjoy the journey with us as we celebrate the joy of learning and exploration!
